DATE MAILED: 07/14/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b>	<b>Applicant(s)</b>
	09/833,956	LIN-HENDEL, CATHERINE
	Examiner Andrew J. Fischer	Art Unit 3627

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 09 November 2005.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) Claim(s) 18-37 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) Claim(s) \_\_\_\_\_ is/are allowed.
- 6) Claim(s) 18-37 is/are rejected.
- 7) Claim(s) \_\_\_\_\_ is/are objected to.
- 8) Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) The specification is objected to by the Examiner.
- 10) The drawing(s) filed on \_\_\_\_\_ is/are: a) accepted or b) objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) All    b) Some \* c) None of:
1. Certified copies of the priority documents have been received.
  2. Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

## **DETAILED ACTION**

### ***Continued Examination Under 37 C.F.R. §1.114***

1. A request for continued examination (“RCE”) under 37 C.F.R. §1.114, including the fee set forth in 37 C.F.R. §1.17(e), was filed in this application on November 9, 2005. This application was under a final rejection (the “First Final Office Action” mailed August 24, 2004) and is therefore eligible for continued examination under 37 C.F.R. §1.114. Because the fee set forth in 37 C.F.R. §1.17(e) has been timely paid, the finality in the First Final Office Action has been withdrawn pursuant to 37 C.F.R. §1.114.

### ***Acknowledgements***

2. In accordance with the RCE noted above, Applicant’s amendment filed November 24, 2004 is acknowledged. Accordingly, claims 18-37 remain pending.
3. This Office Action, the “Second Non Final Office Action” is given Paper No. 20060710.
4. Applicant’s petition filed under 37 C.F.R. § 1.137(b) on November 9, 2005 has been granted. See USPTO decision mailed April 26, 2006.
5. All references in this Office Action to the capitalized versions of “Applicant” refers specifically the Applicant of record. References to lower case versions of “applicant” or “applicants” refers to any or all patent “applicants.” Unless expressly noted otherwise, references to “Examiner” in this Office Action refers to the Examiner of record while reference to or use of the lower case version of “examiner” or “examiners” refers to examiner(s) generally.

***Claim Rejections - 35 USC §102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. §102 that form the basis for the rejections under this section made in this Office Action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States. . . .

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 18-37 are rejected under 35 U.S.C. §102(e) as being anticipated by Ehrlich et. al. (U.S. 2002/0156685 A1)(“Ehrlich”). Ehrlich discloses the claimed invention including using a single search to purchase items on the Web [0017]. It is the Examiner’s position that because of the single search feature multiple items, selectively designating is inherent.

***Claim Rejections - 35 USC §103***

8. The following is a quotation of 35 U.S.C. §103(a) which forms the basis for all obviousness rejections set forth in this Office Action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3627

9. Claims 18-37 are alternatively rejected under 35 U.S.C. §103(a) as being unpatentable over Ehrlich.<sup>1</sup> It is the Examiner's principle position that the claims are anticipated because of the inherencies noted above

However if not inherent, it would have been obvious to a person having ordinary skill in the art at the time the invention was made to modify Ehrlich to expressly recite "selectively designating". Such a modification would have shown how ordinary such engines, simply by the user's typing is "selectively designating" a particular product.

10. For due process purposes and because Applicant has not objectively indicated and redefined claim limitation(s) to have meanings other than their ordinary and accustomed meanings, the Examiner confirms that Applicant has decided not to be her own lexicographer. To support this position, the Examiner again notes the following factual findings as first discussed in the previous Office Actions.<sup>2</sup> First, the Examiner has again carefully reviewed the specification and prosecution history and can not locate any lexicographic definition(s). Second, the Examiner finds that not only has Applicant not pointed to definitional statements in her specification or prosecution history, Applicant has also not pointed to a term or terms in a claim with which to draw in those statements<sup>3</sup> with the required clarity, deliberateness, and precision.<sup>4</sup>

---

<sup>1</sup> See MPEP §2112 expressly authorizing alternative §102/§103 rejections when the question of inherency is present in the anticipation rejection.

<sup>2</sup> See the First Non Final Office Action mailed February 23, 2004, Paper No. 7, Paragraph No. 13; the First Final Office Action mailed August 24, 2004, Paper No. 082204, Paragraph No. 12 which begins on page 4.

<sup>3</sup> "In order to overcome this heavy presumption in favor of the ordinary meaning of claim language, it is clear that a party wishing to use statements in the written description to confine or otherwise affect a patent's scope must, *at the very least*, point to a term or terms in the claim

Third, after receiving express notice of the Examiner's position that lexicography is *not* invoked,<sup>5</sup> Applicant's three (3) responses have not pointed out the "supposed errors" in the Examiner's position regarding lexicography invocation in accordance with 37 C.F.R. §1.111(b) (*i.e.* Applicant did not argue lexicography *was* invoked). Forth and to be sure of Applicant's intent, the Examiner also notes that Applicant has declined the Examiner's express invitation<sup>6</sup> to be her own lexicographer. Finally, after receiving express notice of the preceding factual findings and conclusions, Applicant's latest response again fails to point out the supposed errors in the Examiner's position regarding lexicography invocation in accordance with 37 C.F.R. §1.111(b). Moreover, Applicant's latest response—while fully considered by the Examiner—has not changed the Examiner's reasonable conclusion that Applicant has decided not to be her own lexicographer. Therefore the heavy presumption in favor of the ordinary and accustomed meaning for claim terminology is again confirmed. Accordingly, the claims continue to be interpreted with their "broadest reasonable interpretation," *In re Morris*, 127 F.3d 1048, 1054, 44

---

with which to draw in those statements. [Emphasis added.]" *Johnson Worldwide Assocs. v. Zebco Corp.*, 175 F.3d 985, 989, 50 USPQ2d 1607, 1610 (Fed. Cir. 1999).

<sup>4</sup> "The patentee's lexicography must, of course, appear 'with reasonable clarity, deliberateness, and precision' before it can affect the claim." *Renishaw PLC v. Marposs Societa' per Azioni*, 158 F.3d 1243, 1249, 48 USPQ2d 1117, 1121 (Fed. Cir. 1998) citing *In re Paulsen*, 30 F.3d 1475, 1480, 31 USPQ2d 1671, 1674 (Fed. Cir. 1994).

<sup>5</sup> See Note 2.

<sup>6</sup> See e.g. *Fuji Photo Film Co. v. ITC*, 386 F.3d 1095, 72 USPQ2d 1769, 1773 (Fed. Cir. 2004) (noting that applicants' failure to correct the examiner's characterization of an element of claim interpretation is nevertheless an indication of how a claim should be interpreted since applicant declined the examiner's express invitation to correct a possible error in claim interpretation: "applicant's attention was called to the examiner's interpretation of [how the element was interpreted by the examiner, and] applicant was invited to correct the examiner's interpretation—an invitation the applicant did not accept.")

Art Unit: 3627

USPQ2d 1023, 1027 (Fed. Cir. 1997), and the Examiner continues to rely heavily and extensively on this interpretation.<sup>7</sup>

***Response to Arguments***

11. Applicant's arguments filed November 24, 2004 have been fully considered but they are moot in view of the new grounds of rejection.

***Conclusion***

12. References considered pertinent to Applicant's disclosure are listed on form PTO-892. All references listed on form PTO-892 are cited in their entirety.

13. Unless expressly noted otherwise by the Examiner or other USPTO official, the following four (4) citations to the Manual of Patent Examining Procedure ("MPEP") apply to this Office Action *and* any future office action(s), communication(s), or other correspondence provided by the USPTO: MPEP citations to Chapter 2300 are from the MPEP 8<sup>th</sup> Edition, Rev. 4, October 2005; citations to Chapters 200-900, 1200-1400, and 1700-1900, 2100, 2200, 2600 are from the MPEP 8<sup>th</sup> Edition, Rev. 3, August 2005. MPEP citations to Chapters 100, 1000, 1100, 1500, 2000, 2500, and 2700 are from the MPEP 8<sup>th</sup> Edition, Rev. 2, May 2004. MPEP citations to Chapters 1600, 2300, 2400 are from MPEP 8<sup>th</sup> Edition, August 2001.

14. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications

---

<sup>7</sup> See 37 C.F.R. §1.104(c)(3) which states in part: "the examiner may rely upon admissions by applicant . . . as to *any matter* affecting patentability . . . [Emphasis added.]"

Art Unit: 3627

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

15. Applicant is reminded that patents are written by and for skilled artisans. See e.g. *Vivid Technologies, Inc. v. American Science and Engineering, Inc.*, 200 F.3d 795, 804, 53 USPQ2d 1289, 1295 (Fed. Cir. 1999) (“patents are written by and for skilled artisans”).<sup>8</sup> The Examiner therefore starts with the presumption that Applicant is a skilled artisan who possess at least ordinary skill in the art. Consequently, it is the Examiner’s position that because the patent references of record are directed to those with ordinary skill in this art, these references are clear, explicit, and specific as to what they teach. Nevertheless some applicants apparently have difficulty understanding the references. In an effort to maintain compact prosecution, provide due process, and to help these applicants understand the contents of a reference when viewed from the position of one of ordinary skill in this art, Applicant is hereby given actual notice that if after reasonably reading any reference of record—whether the reference is currently of record or subsequently made of record—if Applicant can not reasonably understand or if Applicant has difficulty comprehending one or more sentence(s), statement(s), diagram(s), or principle(s) set forth in the reference(s), Applicant should (in her next appropriately filed response) bring this issue to the attention of the Examiner. In addition to bringing this issue to the attention of the Examiner, and in accordance with 37 C.F.R. §1.111(b), Applicant’s response must also state *why*

---

<sup>8</sup> See also *S3 Inc. v. nVIDIA Corp.*, 259 F.3d 1364, 1371, 59 USPQ2d 1745, 1749-50 (Fed. Cir. 2001)( “patents are written for persons experienced in the field of the invention”).

he either does not understand or *why* he has difficulty comprehending the offending reference(s). If after properly receiving (*i.e.* Applicant's response is made of record) both Applicant's request for understanding and the reasons as to *why* the request is made—and assuming the reference is germane to at least one outstanding rejection—the Examiner may either provide a substitute reference, or alternatively, do his best to elucidate the particular sentence(s), statement(s), diagram(s), or principles(s) in the offending reference. For all documents or references made of record after this Office Action, Applicant is given actual notice that this paragraph becomes effective when Applicant receives notice that the document or reference is made of record (*i.e.* this paragraph becomes applicable when Applicant submits an Information Disclosure Statement or when Applicant receives an examiner's Notice of References Cited (Form PTO-892)).

16. Additionally, Applicant is reminded that it is inappropriate for the USPTO to disregard any relevant evidence of record. "It is jurisprudentially inappropriate to disregard any relevant evidence on any issue in any case, patent cases included." *Stratoflex, Inc. v. Aeroquip Corp.*, 713 F.2d 1530, 218 USPQ 871, 879 (Fed. Cir. 1983). Second, when making substantive patentability determinations, the USPTO uses the preponderance of the evidence standard.<sup>9</sup> In light of this standard, it is clear error for the USPTO not to consider *all* evidence of record. See e.g. *In re Piasecki*, 745 F.2d 1468, 1471, 223 USPQ 785, 787 (Fed. Cir. 1984) ("All the evidence on the question of obviousness must be considered."); *In re Oetiker*, 977 F.2d 1443, 1445, 24 USPQ2d 1443, 1444 (Fed. Cir. 1992) ("After evidence or argument is submitted by the applicant in response, patentability is determined on *the totality of the record*, by a preponderance of

---

<sup>9</sup> See MPEP §706 I. "The standard to be applied in *all* cases is the 'preponderance of the evidence' test. In other words, an examiner should reject a claim if, in view of the prior art and evidence of record, it is more likely than not that the claim is unpatentable. [Emphasis added.]"

evidence with due consideration to persuasiveness of argument. [Emphasis added.]”); *In re Glaug*, 283 F.3d 1335, 1338, 62 USPQ2d 1151, 1152-53 (Fed. Cir. 2002)(“Patentability vel non is then determined on the *entirety* of the record, by a preponderance of evidence and weight of argument. . . ; patentability is determined by a preponderance of *all* the evidence. [Emphasis added.]”); and *In re Rinehart*, 531 F.2d 1048, 189 USPQ 143, 146 (CCPA 1976)(where the court expressly set forth the issue as “Whether, in light of *all the evidence*, the claimed method would have been obvious at the time the invention was made. [Emphasis added.]”). Third, any factual determination by the USPTO that does not consider *all* relevant evidence of record may not be supported by the required substantial evidence<sup>10</sup> since the particular evidence *not* considered may be probative of a factual issue presented. Forth, prior art patents are not technical treatises and therefore these patents intentionally omit features that are known in the field of the invention. See *S3 Inc. v. nVIDIA Corp.*, 259 F.3d at 1371, 59 USPQ2d at 1749-50 (“The law is clear that patent documents need not include subject matter that is known in the field of the invention and is in the prior art, for patents are written for persons experienced in the field of the invention. . . To hold otherwise would require every patent document to include a technical treatise for the unskilled reader.”); and *Atmel Corp. v. Information Storage Devices, Inc.*, 198 F.3d 1374, 1382, 53 USPQ2d 1225, 1230 (Fed. Cir. 1999)(“The specification would be of enormous and unnecessary length if one had to literally reinvent and describe the wheel.”). Finally and perhaps most importantly, it is well established that “[a] reference anticipates a claim if it discloses the

---

<sup>10</sup> See *In re Gartside*, 203 F.3d 1305, 1315, 53 USPQ2d 1769, 1775 (Fed. Cir. 2000) where the Federal Circuit concluded that USPTO’s factual findings must be supported by substantial evidence.

claimed invention ‘such that a skilled artisan could take its teachings in *combination with his own knowledge of the particular art and be in possession of the invention.* [Emphasis in original.]’’ *In re Graves*, 69 F.3d 1147, 1152, 36 USPQ2d 1697, 1701 (Fed. Cir. 1995) citing *In re LeGrice*, 301 F.2d 929, 936, 133 USPQ 365, 372 (CCPA 1962) and noting that regarding the claimed “simultaneously monitoring the selected multiple connection points,” the prior art “nevertheless anticipates [the claimed invention], even if it does not specifically disclose simultaneous monitoring of the output points, if simultaneous or parallel monitoring is within the knowledge of a skilled artisan.” *Graves*, 69 F.3d at 1152, 36 USPQ2d at 1701.<sup>11</sup> Therefore because, *inter alia*, it is inappropriate for the USPTO to disregard any relevant evidence, because the USPTO must consider all evidence of record, because any evidence of record *not* considered by the USPTO may be probative of at least one factual issue presented, and because anticipation is determined by the teachings of a reference in combination with the knowledge of one of ordinary skill in the art, Applicant is hereby given actual notice that all prior art rejections (*i.e.* rejection(s) based upon 35 U.S.C. §§ 102 or 103)—if found in this Office Action or any subsequent office action—are based upon the cited reference(s) in the statement of the rejection in combination with the knowledge of one of ordinary skill in this art.

17. In accordance with the USPTO’s goals of customer service, compact prosecution, and reduction of cycle time, the Examiner has made every effort to clarify his position regarding claim interpretation and any rejections or objections in this application. Furthermore, the Examiner has again provided Applicants with notice—for due process purposes—of his position

---

<sup>11</sup> See also *In re Donohue*, 766 F.2d 531, 533, 226 USPQ 619, 621 (Fed. Cir. 1985) for the same statement of law and also citing *In re LeGrice*.

regarding his factual determinations and legal conclusions. The Examiner notes and thanks Applicant for her "Remarks" (beginning on page 8) traversing the Examiner's positions on various points. If Applicant disagrees with any additional factual determination or legal conclusion made by the Examiner in this Office Action whether expressly stated or implied,<sup>12</sup> the Examiner respectfully reminds Applicant to properly traverse the Examiner's position(s) in accordance with 37 C.F.R. §1.111(b) in his next properly filed response. As noted previously, by addressing these issues now, matters where the Examiner and Applicant agree can be eliminated allowing the Examiner and Applicant to focus on areas of disagreement (if any) with the goal towards allowance in the shortest possible time. If Applicant has any questions regarding the Examiner's positions or has other questions regarding this communication or even previous communications, Applicant is strongly encouraged to contact Examiner Andrew J. Fischer whose telephone number is (571) 272-6779. If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's immediate supervisor, Alexander Kalinowski, can be reached at (571) 272-6771. The fax number for facsimile responses is now (571) 273-8300.

A handwritten signature in black ink that reads "AJ Fischer". To the right of the signature is the date "7/10/06".
